### **ABOUT PWYP-UK**

Publish What You Pay UK (PWYP UK) is a coalition of 30 UK-based NGOs united in working for a more transparent, accountable and sustainable extractive sector. The coalition has played an important role in the achievement and implementation of international mandatory extractive industry transparency standards, in strengthening disclosure under the Extractive Industries Transparency Initiative (EITI), and in working to translate extractives transparency into accountability. With these achievements, and with the accelerating climate crisis, PWYP UK is looking to build on its new strategy to identify and leverage new opportunities in the UK, particularly around climate change and a just energy transition.
